Texas BeefHouse is doing our part in a grassroots transformation of the beef industry. We want to bring control back to the ranchers and consumers. Our model simply involves the rancher, the USDA butcher, and our customers. By cutting out the feedlots, the packers, and the grocery stores, we believe our model returns value and quality back to the rancher and you, the customer.

When you purchase beef from Texas Beefhouse, the first and last person to handle your beef is the rancher. Quality begins on day one, when the calf hits the ground. He is a product of his genetics and environment. We are a breed specific ranch. Texas Beefhouse uses only registered Wagyu and registered Black Angus cattle to produce our beef product. These two breeds are the leaders in the industry for marbling and tenderness.

Texas Beefhouse products are packaged under a USDA label for "All Natural Pasture Raised Beef". Our beef animals are pastured on spacious fields of rye grass and Bermuda during the appropriate growing seasons. At Texas Beefhouse, the beef cattle are never given feed that contain antibiotics or receive implants containing steroids or hormones. Our target goal is to produce nothing short of premium beef.

Texas Beefhouse auctions bring value by being able to bring our beef product directly from the ranch to the customer. Cutting out all the middlemen. An auction model allows the customer to establish a real time, market determined price. Our customers can buy as much beef as they want at the price they desire. We are what we eat. Our health reflects the quality of food we consume. Our customers can have confidence in knowing what is and what is not in Texas Beefhouse beef.

FROM OUR FIELDS TO YOUR FAMILY.
